ABSTRACT

The adopted zoning changes amends both the Zoning Ordinance and the Zoning Use District Map of the Town of Riverhead pursuant to Section 265 of the Town Law. As graphically depicted in the map made part of this publication, the real property formally known as Calverton Naval Weapons Industrial Reserve Plant (Suffolk County Tax Map Nos. 0600-135-1-7.1; 7.2; 7.3; 7.4; 7.5) has been rezoned from the existing Defense Institutional Zoning Use District into two (2) distinct zoning use districts; the Planned Industrial Park District (PIP) and the Planned Recreational Park District (PRP). The new districts were created to implement an amendment to the Master Plan of the Town of Riverhead made pursuant to Section 265 of the Town Law and adopted by the Town Board of the Town of Riverhead by resolution number 830 of 1999.

The text of the Planned Industrial Park District identifies as its purpose the encouragement of industrial and office development in a comprehensively planned and designed environment which will attract private investment, increase the tax base of the Town of Riverhead and provide new employment opportunities while maintaining the integrity of the environment. The district provides for both permitted and accessory uses which would allow for the development in conformance with the expressed purpose of the PIP. The regulations require the approval of a Comprehensive Development Plan (CDP) consistent with the special permit procedures of the Town of Riverhead prior to the approval of the site plan necessary to construct any of the permitted or specially permitted uses. The PIP further regulates development with regard to general lot yard and height requirements by particular use, design standards for construction layout for subdivision of real property, and standards for signs. The district provides for additional development standards consistent with the Central Suffolk Pine Barrens Comprehensive Development Plan as enumerated in Article XXXV of the Town Zoning Ordinance – Pine Barrens Overlay District.

The text of the Planned Recreational Park District identifies as its purpose the attraction of regional recreational uses, theme attractions, amusement parks, sports venues, hotel and conference centers, golf courses and open space areas which would draw upon the leisure and tourism market of the east end of Long Island. The purpose further includes the encouragement of private investment to increase the town tax base and to create employment

opportunities while maintaining the integrity of the environment. The PRP provides for a number of permitted and accessory uses which would allow for development in conformance with the purposes of the PRP. The regulations of the district require the approval of a schematic land use and infrastructure network plan by the Town Board prior to the submission of a site plan application for land development. The PRP further regulates development with regard to general lot, yard and height requirements, design standards for construction, layout for subdivision of real property, and standards for signs, exterior lighting, pedestrian pathway and common open spaces. The PRP further provides for a maximum development area of particular land uses through attending sub-district regulations. The PRP provides for additional design standards consistent with the Central Suffolk Pine Barrens Comprehensive Development Plan as enumerated in Article XXXV of Town Zoning Ordinance – Pine Barrens Overlay District.
